

## TCM Forklift Parts

TCM Forklift Parts - In the international business of material handling, lift trucks play a major part for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machines spread internationally.

In nineteen forty nine, started by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the company is simply known as TCM Corporation. Through the years, TCM forklifts have become a global leader in forklift manufacturing and have built a solid reputation in the trade. TCM began building forklift manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures numerous models of industrial lift trucks with more than 50 years of accumulated technology and expertise, making their products used and recognized all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading business.
