

## Meritor Parts

Meritor Part - Meritor is a leading international supplier which is proudly established on a 100 year custom of service and quality. They specialize in several integrated systems, modules and parts to original equipment makers and the aftermarket for the transportation and industrial sectors.

Meritor values the needs of all their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a philosophy that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred people, Meritor promotes collaboration and innovation among a team of experienced professionals.

Meritor strongly believes in just hiring future focused workers. These top-caliber individuals could quickly adapt to changing surroundings and freely exhibit the level of commitment and performance required so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers all of their employees various chances for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, suspension and braking systems utilized for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of all their worldwide engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the globe in 19 nations and in 5 different continents.

The supplier development network is specially located to be able to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within every part of the trade. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
