

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in service in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive brands of forklifts, with components covering more than 120,000 specialized items for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark's extraordinary Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most amazing dealer support networks. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering safety features such as the operator restraint system. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark has a continual mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the particularly economical and advantageous system of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was established to acknowledge the most effective method of manufacturing plant stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to upgrade the proficiency and brilliance of their merchandise while minimizing costs. The contemporary value engineering program combines innovative product growth and delivers improved client support and service within the industry.
